# Varun Petekar

Dombivli, India 421202 | +919324342207 | varunpetekar28@gmail.com | LinkedIn | Portfolio

## EDUCATION

**Bachelor of Science in Information Technology**, Pragati College of Arts & Commerce, Mumbai University 07/ 2021 –04/2023
**HSC, Commerce**, S. H. Jhondhale Polytechnic, Mumbai University 08/2019 – 04/2021
**SSC**, Swami Vivekanand Vidyamandir, Mumbai University 06/2009 – 05/2019

## SKILLS

**Data & Programming Languages:** SQL, Python (Pandas, NumPy, Matplotlib, PyInstaller), API Development (REST APIs, Third-party API Integration)
**Databases:** MySQL, PostgreSQL, Firebase
**Cloud Technologies:** GCP, Azure, Databricks
**BI/Analytics Tools:** MS Excel, Tableau, Google Analytics 4, VBA Macros, Power BI, BigQuery, GTM, Google Search Console, SEO Analytics, Google Business Profile.
**AI & Automation Tools:** LangChain, FAISS, Google Gemini API, Selenium, Web Scraping, Ollama, Mistral, Deepseek, n8n, LangGraph, Airia, LangFlow
**IDE & Tools:** Git, Jupyter Notebook, PyCharm, Visual Studio Code, MySQL Workbench, SSMS, Azure Data Studio, Cursor, Windsurf, Antigravity

## WORK EXPERIENCE

**Execiva, India,** Data *Analyst* 08/2024 – Present

• Manage end-to-end data analytics, web scraping, API development, and database operations, processing 500K+ records/month using Python, SQL, and Selenium.

• Build and maintain Power BI dashboards and cloud analytics pipelines on BigQuery and Databricks, supporting 10+ active US clients with real-time insights.

• *Oversee backend systems, CRM workflows (HubSpot, Concord), and digital analytics, improving reporting efficiency by ~60% through automation, SEO tracking, and optimized data flows.*

**Pacecon Technosys Pvt Ltd, India**, Application Developer Intern 05/2024 – 08/2024

- Led full-stack development, building and hosting Python APIs solo, supporting 100% of frontend-backend integration.
- Fixed 15+ critical data bugs and optimized cross-platform handling, improving app stability by 40%.
- Designed data models and integrated 3 third-party APIs, boosting data retrieval speed by 50% and cutting manual work by 25%.

## PROJECTS

***AI Lead Scraping & Proposal Automation***

• *Built an n8n automation to scrape 50,000+ leads/month from platforms like Upwork bypassing Cloudflare.*

• *Automatically generated proposals based on lead data, reducing manual work by 90%, with only human intervention for sending.*

• *Improved client lead conversion by 60% by delivering timely and accurate proposals at scale.*

***Spotify Music Metadata, Playcount, Credits And Lyrics Scraper***

• *Scraped 800M+ songs, extracting metadata, playcount, lyrics and credits automatically using track and artist URLs.*

• *Fully automated the process to capture entire artist catalogs and associated song details, improving data accuracy by 70%.*

• *Enabled large-scale analytics for 200+ artists and 5M+ tracks monthly, supporting actionable insights for clients.*

***Cloud-Powered Power BI Dashboard***

• *Built dashboards connected to BigQuery and PostgreSQL, visualizing millions of rows of client data in real-time.*

• *Made dashboards accessible via live web URL, improving reporting speed by 40% and usability for 50+ clients.*

• *Optimized queries and visuals for high performance, reducing report loading time by 30%.*

***AI-Driven Lead Intelligence & Outreach Automation (n8n + Apify)***

• *Built an end-to-end AI automation using n8n and Apify to scrape high-volume B2B lead data with 40+ structured attributes including company, revenue, tech stack, and decision-maker details.*

• *Developed an AI agent to analyze leads and auto-generate technical opportunity reports (SEO, AI automation, dashboards, analytics) tailored to each business.*

- *Implemented autonomous AI agents for calling, personalized cold emailing, and interest detection, auto-routing qualified leads to GCO with zero manual intervention.*

**CERTIFICATIONS**

---

- ***Google Cloud Platform (GCP) Fundamentals*** *– Udemy, Feb 2025*
- ***Microsoft Power BI: Data Analysis & Visualization*** *– Udemy, Jan 2025*
